TREES & SHRUBS MOZAMBIQUE

JOHN BURROWS • ERNST SCHMIDT • SANDRA BURROWS • MERVYN LÖTTER

RELEASE DATE: NOVEMBER 2017

The definitive guide to the trees and shrubs of Mozambique

Mozambique is a land of immense variety of landscape and biological diversity. However, its forests and woodlands are being cleared at an alarming rate.

With few exceptions, the country has no inventory of its trees and shrubs, the component that forms the web or skeleton of Mozambique's vegetation.

Trees and Shrubs of Mozambique provides the first accurate and comprehensive account of the woody plants of Mozambique and their distribution and how to identify them through the use of keys, descriptions and illustrations.

Aimed at botanists – both amateur and professional – conservationists, foresters, university and secondary school students, NGOs and eco-tourists, this book covers some 1,800 species of trees and shrubs, illustrated with over 4,000 colour photographs, as well as leaf line drawings and distribution maps.

- The first book to illustrate, map and describe all the known woody plants of Mozambique
 - Covers approximately 1,800 species of trees and shrubs
 - Over 4,000 colour photographs, and approximately 1,900 pen and ink line drawings
 - Mozambique's major vegetation types illustrated and briefly described
 - Conservation status of rare, endemic and threatened plants
 - The essential guide to Mozambique's rapidly dwindling and increasingly threatened woody flora
 - A guide to the tree and shrubs of much of south-eastern tropical Africa.
- Twelve years of travel and research have resulted in this, the definitive work on the woody plants of Mozambique and south-eastern tropical Africa. Comprehensive, authoritative and lavishly illustrated, this is the essential reference work for every tree-lover.**

ABOUT THE AUTHORS

John Burrows

John is a trustee, and the manager, of Buffelskloof Nature Reserve in Mpumalanga, South Africa, and curator of the Buffelskloof Herbarium (BNRH). John has a Diploma in Horticulture and an MSc in Botany from the University of KwaZulu-Natal. In addition to having published numerous scientific papers, he has authored the following books:

Trees & Shrubs of Mpumalanga and Kruger National Park (2002) (Editor)
Figs of Southern and South-Central Africa (2003) (with S.M. Burrows).
Plants of the Nyika Plateau: an account of the vegetation of the Nyika National Parks of Zambia & Malawi (2005) (with C. Willis).

Ernst Schmidt

Ernst is a retired lawyer who now farms in the Heazyview area of Mpumalanga, South Africa. He has a keen interest in nature and a love of trees; he also curates his own private herbarium which houses ± 6,000 specimens.

Trees & Shrubs of Mpumalanga and Kruger National Park (2002) (Senior Author).
Sagpp! tree spotting lyfer list Jacana Media (2004).

Sandra Burrows

Sandra is a trained horticulturist, an experienced field botanist and one of South Africa's leading botanical illustrators. She was awarded 1st Prize in the 2009 Margaret Flockton Award for Excellence in Scientific and Botanical Illustration. Besides the numerous scientific papers she has illustrated and books she has co-authored, she has

illustrated the following major works:
Plants of the Nyika Plateau: an account of the vegetation of the Nyika National Parks of Zambia & Malawi (2005).
Figs of Southern and South-Central Africa (2003).

Mervyn Lötter

Mervyn joined the Mpumalanga Tourism & Parks Agency as a botanist working on threatened plants in 1994 and now heads their Biodiversity Planning and GIS unit. Mervyn has developed two systematic conservation plans for the province and currently serves on the Board for the Society of Conservation GIS. He holds a PhD (Botany) from the University of the Witwatersrand.

Selected Publications:

Trees & Shrubs of Mpumalanga and Kruger National Park (2002) (Co-author)
Marxian Good Practices Handbook (2008) (co-author in two Chapters)
The vegetation of South Africa, Lesotho and Swaziland (2006) (Co-author in three Chapters)
